DEPARTMENT OF ENVIRONMENTAL
PROTECTION

September 29, 2015

Ms. Laura Ann Freeman
EMSL Analytical, Inc.
200 Route 130 N.
Cinnaminson, NJ 08077

Dear Ms. Freeman:

Your application for radon laboratory analysis, individual Pennsylvania Radon Certification has been reviewed and approved.

Your radon certificate is enclosed. Please review for any errors. You may use your certification identification number in your advertising to provide proof of certification.

You are certified in Pennsylvania to read or analyze the following devices: Liquid Scintillation.

It is the certified individual's responsibility to notify the Department of Environmental Protection (DEP) of any changes which may affect your certification within 10 days of the occurrence of that change. All notifications of changes must be made in writing and bear the signature of the certified individual. Changes may be sent by postal mail, fax (717.783.8965), or by emailing a PDF of your scanned document.

Please be aware, submittal of a signed written request to the Department to make a change to your certification is only part of the process. This process is only completed when you receive written approval of that requested change from the Department. It is your responsibility to ensure this approval is received.

The certification is valid for two years. The DEP normally sends application forms for recertification approximately 90 days prior to expiration of current certification. However, it is the responsibility of the certified person, not DEP, to ensure that timely application for recertification is made.

If you have any questions, please contact me by email at koberdick@pa.gov or by telephone at 717.783.3594.

Sincerely,

Kelley M. Oberdick
