Dear Oommen Kappil:

This office is in receipt of your certificate of accreditation for Cryptosporidium (EPA 1623.1) analysis in drinking water that was issued by the State of New Jersey Department of Environmental Protection.

Based on this information and pursuant to Ohio Administrative Code (OAC) Rule 3745-89-02, the analytical results of Cryptosporidium analysis performed by your laboratory on drinking water samples are acceptable to the Ohio EPA for compliance monitoring purposes. Your laboratory is required to provide this office with copies of any letters or reports, as they become available, which relate to your acceptance status for Cryptosporidium analysis as determined by the State of New Jersey Department of Environmental Protection.

Your laboratory must maintain satisfactory performance for Cryptosporidium analysis, including the reporting requirements as specified in OAC Rule 3745-89-08, and for laboratory certification requirements to ensure continued acceptance of your drinking water Cryptosporidium analytical data by the Ohio EPA.
