LANSING

C. HEIDI GREYER  
DIRECTOR

November 20, 2017

Mr. Ryan Shannon  
EMSL Analytical, Inc.  
212 South Wagner Road  
Ann Arbor, MI 48103

Laboratory No: 9946  
Effective Date: November 13, 2017

Dear Mr. Shannon:

**SUBJECT:** Laboratory Certification

The information that was prepared and submitted to this office by your laboratory has been reviewed. Based on this information, the Department of Environmental Quality (DEQ) has certified your laboratory for compliance monitoring under the Safe Drinking Water Act, 1976 PA 399, as amended. Our certification for your laboratory by parameter is as follows:

**Inorganic Chemistry**

Full Certification:

Asbestos (via US EPA Method 100.2)

Our certification of EMSL Analytical, Inc. for the chemical examination of drinking water is contingent on your continued certification by NVLAP and compliance with state and federal regulations. Additionally, your certification is contingent on the submission of acceptable proficiency test sample results from a state-approved supplier on a running 12-month basis.

Our certification of your facility will expire on June 30, 2018. Please forward your certificates and on-site inspection reports once you renew your NVLAP certification. Provided you maintain fully certified status with NVLAP and meet the proficiency test requirements specified above you will be reissued reciprocal certification for the State of Michigan. If you have questions regarding this information please contact me by phone at 517-335-9219 or by email at [lundyg@michigan.gov](mailto:lundyg@michigan.gov).

Sincerely,

Gregg A. Lundy  
Laboratory Certification Officer
