Ms. Bonnie Soles
QA Administrator
EMSL Analytical, Inc.
14375 23rd Avenue North
Minneapolis, Minnesota 55447

Dear Ms. Soles:

In accordance with the authority stated in 40 CFR 141 and 142, Certification Officers from the U.S. Environmental Protection Agency Region 8 have reviewed your request for reciprocal certification of drinking water contaminants along with the documentation that was attached. Based upon the recommendation of my staff, I hereby grant reciprocal certification for the State of Wyoming and all tribal public water systems in Region 8 to EMSL Analytical, Inc. located in Minneapolis, Minnesota, for the parameter listed below. This reciprocal certification is based on the National Environmental Laboratory Accreditation Program (NELAP) accreditation of your laboratory by the States of New York and Minnesota, and on the performance of your laboratory in the analysis of proficiency testing samples.

Parameter	Method(s)	Certification		
		Begin Date	End Date	Status
Group: Asbestos				
Asbestos	100.2	6/1/2015	4/1/2016	Reciprocal

Certification will remain in effect for the above period under the conditions that the laboratory remains accredited by the States of New York and Minnesota NELAP for the above parameter, that the laboratory follows the specified method, and that Water Supply proficiency testing samples are successfully analyzed by the laboratory for the above parameter once per year. It is the responsibility of the laboratory to request certification beyond the stated date.

If you have any comments or questions, please contact Marcie Tidd, Region 8 Drinking Water Laboratory Certification Program Manager, at (303) 312-7764 (tidd.marcie.@epa.gov).

Sincerely,

Richard D. Buhl
Assistant Regional Administrator
Office of Technical and Management Services
